micronAir[®]

A safe bet for increased sales – filter changes with micronAir.

Most new cars throughout Europe are fitted with micronAir filters:

- Rising demand
- Premium quality
- Wide choice of models
- Short installation times
- Boosts customer loyalty

The best bet: top filtering performance

- Dependable protection from pollens, dirt particles and exhaust gases
- Reduced odour formation (with combi filters)
- Enhanced wellbeing for allergy sufferers
- Increased driving comfort and driving safety

+ activated carbon

micronAir particle filters

Effective protection against pollens, road dust, abraded particles from brakes and tyres, soot and other dirt particles.

micronAir combi filters

With added effective protection against unpleasant odours and gases, like ozone or benzene.
